# How To Create Your Own Substitute Chords And Reharmonizations

---

# 1

Two phrases come to mind when I look at the title above: “If it ain’t broke, don’t fix it,” and, “better than new.” Before you begin to manipulate a tune harmonically, you must first determine what the musical motivation is behind the change. Generally, I find that the tunes which come under consideration most often for harmonic alteration are of the “Tin Pan Alley” era. They have been around for quite a while, and have been interpreted by many fine artists.

Saying that these tunes are familiar is understating the fact. Some might argue that we should remain true to the composers’ original intent, and therefore should leave all the harmonies intact (“If it ain’t broke . . .”), while others feel that this material could benefit from a fresh approach (“Better than new”). Being a composer, I can empathize with the former statement. Yet, as a composer I feel that it is essential to give the performer creative license to interpret material in a personal manner.

The purpose of this book is to demonstrate techniques used to create substitute chords and reharmonizations. A collection of tunes will be presented, each receiving two special harmonic treatments. The first special treatment employs a mild use of substitutions, using the original harmonies as a guide. The second treatment will be a more advanced reharmonization, making use almost exclusively of alternative harmonies. Each tune is voiced out for two hands in a solo piano format. These voicings can be analyzed and transferred to your piano “vocabulary” for use as you see fit. Along with this selection of familiar standard tunes, I have included my own original blues. These suggest some alternative blues progressions, and they can be precursors for composing your own material. The process of finding chord substitutions is actually the first step in this direction.

This book can be used in several ways. Read the text and refer to the cited music examples; create your own versions of tunes using the techniques described; play through the music and see if you can extract some ideas to apply to other tunes. Play through the music and make note of other chordal possibilities for the given examples. You can also use the musical examples as a source for chord voicings.

Creative license is the key to creating your own substitute chords and reharmonizations. However, creativity should not be the only criterion for developing sub chords and re-harms. There are certain theoretical procedures which can be employed to aid in the search for alternative harmonies. Along with the pure creative process and music theory, the third part of this equation is to let your ear guide you. When I’m working on a tune, looking for a fresh harmonic setting, I draw upon all three to aid in the process.

Let’s take a look at some techniques which can be used in the search for substitute chords.

# Tritone Substitution

## 2

One of the most frequently called upon substitutions in the professional musician's bag of tricks is known as the *tritone substitution*. Generally speaking, this describes the fact that a dominant 7th chord can be replaced with another dominant 7th whose root is a tritone away from the original. A tritone is the term used to describe an interval (the distance between two notes) of three whole tones. This interval can also be referred to as an augmented fourth or a diminished fifth.

For example, a G7 can be replaced with a Db7.

becomes

Musical notation in 4/4 time showing chord substitutions. The first measure contains Dm7, G7<sup>b9</sup>, and C<sup>6/9</sup>. The second measure contains Dm7, Db7<sup>+9</sup>, and C<sup>6</sup>. The notation is written in a grand staff with treble and bass clefs.

These chords are closely related in that they share two very important tones, F and B.

Here are further examples of tritone substitution.

Musical notation in 4/4 time showing chord substitutions. The first measure contains Am<sup>7</sup>, D7<sup>+9</sup>, and G<sup>6/9</sup>. The second measure contains Am<sup>7</sup>, Ab7<sup>-9</sup>, and G<sup>6/9</sup>. The notation is written in a grand staff with treble and bass clefs.

Fm11    B<sup>b</sup>7<sup>-9</sup>/<sub>+11</sub>    E<sup>b</sup>6/9    becomes    Fm11    E7+11    E<sup>b</sup>Δ+4

Cm7    F7b9    B<sup>b</sup>6/9    becomes    Cm7    B7    B<sup>b</sup>6/9

B<sup>b</sup>m<sup>b</sup>5    E<sup>b</sup>7<sup>-9</sup>/<sub>+3</sub>    A<sup>b</sup>m11    becomes    B<sup>b</sup>m<sup>b</sup>5    A7+11    A<sup>b</sup>m11

After playing through the examples above, you'll want to try your hand at creating your own. Here's a progression that moves from F to B<sup>b</sup> to E<sup>b</sup>. How would you alter it using tritone substitution? I've indicated how I did

Try your hand at this:

Fm11    B<sup>b</sup>7b9    E<sup>b</sup>6/9

Here's how I did it:

Fm11    E7+4    E<sup>b</sup>maj7+4

Now study this example of tritone substitution in "Darn That Dream," then, look at the other arrangements in this book to search for additional places in which this device is used.

Standard

becomes

Am7

B7b5

Am7

B7+11

F7b9

# Changing Chord Qualities

## 3

The quality of a chord (major, minor, dominant, diminished, etc.) can be changed to another quality, even when you are keeping the same root. This can dramatically alter the mood of a piece or phrase. For instance, we can take a major quality chord and change it so that C becomes Cm or E<sup>o</sup> Maj.7 becomes a diminished chord with a major seventh.

E<sup>b</sup>Δ 6/9 becomes E<sup>b</sup>°Δ7 E<sup>b</sup>Δ

We can use the same principle for interchanging chords of other qualities. For example, we can take a minor chord and change its quality to major, dominant, half-diminished, or diminished.

GΔ6/9 becomes G°Δ7 GΔ

CΔ6/9 becomes C°Δ7 CΔ

D° G7b9 C6/9 becomes D7<sup>+9</sup><sub>-13</sub> G7b9 C7sus4

A<sup>o</sup>      D7<sup>-9</sup><sub>+11</sub>      Gm11      becomes      A7<sup>+9</sup><sub>-13</sub>      D7sus4      G7sus4

Try changing the following progression. I've indicated one possibility.

Try your hand at this:

Dm11    G7+4    C<sup>6/9</sup>

Here's how I did it:

Dm11    G7+4    Cm6

I used this device in my arrangement of "Cherokee."

F#9      B $\Delta$       C#m/F#      becomes      F#7<sup>-9</sup><sub>-13</sub>    Bm $\Delta$ 7

# Using Functional Harmony

## 4

Additional chords may be inserted into the harmonic rhythm of a song by following traditional patterns of chord resolution. For example, think of the fact that a dominant chord resolves easily to its tonic. If we have an Eb chord we can almost always precede it with its dominant (Bb7). Other possibilities include inserting the ii chord before a V chord. Therefore if we have a G7, we can precede it with a Dm7.

becomes

The notation shows a piano accompaniment in 4/4 time. The first measure contains an Eb6/9 chord. A double bar line follows. The second measure contains a Bb7b9 chord, and the third measure contains an EbΔ chord. The word "becomes" is centered above the double bar line.

This can be carried a step further by inserting the ii chord's dominant (A7) before that ii chord. Yet another ii chord can be inserted in front of this chord, producing the progression Em7, A7, Dm7, G7. Any of these ii chords can be switched to a dominant quality, i.e. E7, A7, D7, G7. A IV chord is sometimes used in place of a ii chord, i.e., F, G7 instead of Dm, G7. Diminished chords can be used to good effect as well because of their strong tendency toward resolution: B°, C.

becomes

The notation shows a piano accompaniment in 4/4 time. The first measure contains a Gb6/9 chord. A double bar line follows. The second measure contains a Db7b9 chord, and the third measure contains a GbΔ chord. The word "becomes" is centered above the double bar line.

becomes

The notation shows a piano accompaniment in 4/4 time. The first measure contains an A6/9 chord. A double bar line follows. The second measure contains a Bb7b9 chord, and the third measure contains an A6/9 chord. The word "becomes" is centered above the double bar line.

A<sup>b</sup>6/9 becomes E7+11 E<sup>b</sup>7<sup>b</sup>9 A<sup>b</sup>Δ

Cm<sup>6</sup> becomes D7+9 G7<sup>b</sup>9 Cm<sup>6</sup>

Try your hand at this:

# Using Non-Functional Harmony

## 5

Chord progressions can be used in which the traditional tendency of chord resolution is not apparent. This type of chordal movement involves *arbitrary* root movement. Experimenting with root movements of varying intervals can help in this process. Since there are no set theoretical rules to follow in this instance, final decision on the acceptance of a particular progression should be based on your ear and musical taste.

Here are some examples of the use of non-functional harmony.

CΔ7                      B♭7                      becomes                      CΔ7                      E7+9                      A♭7sus4

E♭Δ7                      D♭7                      becomes                      CΔ7                      G7+9                      B7sus4

FΔ7                      E♭7                      becomes                      FΔ7                      A7b9                      D♭7sus4

D $\Delta$ 7 C7 becomes D $\Delta$ 7 F $\sharp$ 7+9 A7sus4

B $\flat$  $\Delta$ 7 A $\flat$ 7 becomes B $\flat$  $\Delta$ 7 D7+9 E $\flat$ m11

Try your hand at this:

Here's how I did it:

E $\flat$  $\Delta$  B $\flat$ m7 E $\flat$  $\Delta$  B7+4 D $\flat$ 7sus4

I used this device in "My Melancholy Baby."

E $\flat$  B $\flat$ m6 C+ becomes B7+11 B7 G7+9 A7sus4 B $\flat$ sus4

# Alterations Of Chord Tones

## 6

The color and mood of a chord can be changed or enhanced by adding *color tones* (chord extensions), and by altering the actual members of the chord (raising or lowering them in half step increments). The chord extensions (also known as color tones or upper structure triads) can be found by building an additional chord in thirds above the basic one we find in the music. If we take a G7, starting from the root, we have: G (root), B (3rd), D (5th), F (7th), to which we can add A (9th), C (11th), E (13th). Any of the tones can be raised or lowered by half steps to yield alterations to the color or quality of the chord. Using this technique can give a progression a very rich and colorful sound.

becomes

Dm<sup>7</sup>      G<sup>7</sup>      C $\Delta$ <sup>7</sup>      Dm<sup>11</sup>      G<sup>7</sup><sub>-9</sub><sup>+11</sup>      C $\Delta$ <sup>6/9</sup>

The first example shows a progression of six chords in 4/4 time. The first three chords are Dm<sup>7</sup>, G<sup>7</sup>, and C $\Delta$ <sup>7</sup>. The second three chords are Dm<sup>11</sup>, G<sup>7</sup><sub>-9</sub><sup>+11</sup>, and C $\Delta$ <sup>6/9</sup>. The notation includes treble and bass staves with chord symbols and notes.

becomes

Fm<sup>7</sup>      B $\flat$ <sup>7</sup>      E $\flat$  $\Delta$ <sup>7</sup>      Fm<sup>9</sup>      B $\flat$ <sup>7</sup><sub>-9</sub><sup>+11</sup>      E $\flat$  $\Delta$ <sup>6/9</sup>

The second example shows a progression of six chords in 4/4 time. The first three chords are Fm<sup>7</sup>, B $\flat$ <sup>7</sup>, and E $\flat$  $\Delta$ <sup>7</sup>. The second three chords are Fm<sup>9</sup>, B $\flat$ <sup>7</sup><sub>-9</sub><sup>+11</sup>, and E $\flat$  $\Delta$ <sup>6/9</sup>. The notation includes treble and bass staves with chord symbols and notes.

becomes

# Approaching Chords From Above Or Below

## 7

If a chord is established as a harmonic goal, it can always be approached by another chord. The half-step above approach is probably the most commonly used (Db7 to C). The typical V7, I of G7 to C now becomes Db7, C, which can also be viewed as the tritone substitution of Db7 for G7. We can also leave the G7, C intact and approach the G7 with a dominant seventh chord from a whole step above: Ab7, G7, C.

There are many variations possible using the *approach* technique. Chords can also be approached from a half-step below the target chord (B7, C), from a whole-step above (D7, C) from a whole-step below (Bb7, C), or by a combination of these (D7, Db7, C). Chord qualities can also be interchanged (minor instead of dominant, half diminished instead of minor). A series of back relating dominant chords can be used to approach a target chord. The term back relating dominant refers to a series of dominant chords each preceded by its own dominant (Eb7, Ab7, Db7, C).

G7                      C<sup>6</sup>/<sub>9</sub>                      becomes                      G7                      B<sup>7</sup>+9                      D<sup>b6</sup>/<sub>9</sub>                      C<sup>6</sup>/<sub>9</sub>

F7                      B<sup>b6</sup>/<sub>9</sub>                      becomes                      F7                      A<sup>7</sup>+<sup>9</sup>/<sub>3</sub>                      B<sup>6</sup>/<sub>9</sub>                      B<sup>b6</sup>/<sub>9</sub>

F<sup>#7</sup>                      B<sup>6</sup>/<sub>9</sub>                      becomes                      F<sup>#7</sup>                      B<sup>b7</sup>+9                      C<sup>6</sup>/<sub>9</sub>                      B<sup>6</sup>/<sub>9</sub>

Em<sup>7</sup> A<sup>7</sup> D<sup>9</sup> becomes F<sup>7+11</sup> Em<sup>9</sup> B<sup>7+9</sup> A<sup>7+11</sup> D<sup>7+9</sup> D<sup>Δ7</sup>

Fm<sup>7</sup> B<sup>7</sup> E<sup>b9</sup> becomes G<sup>7+11</sup> Fm<sup>9</sup> C<sup>7+9</sup> B<sup>7+11</sup> D<sup>7+9</sup> E<sup>bΔ7</sup>

Try your hand at this:

Fm<sup>7</sup> E<sup>bΔ</sup>

Here's how I did it:

Fm<sup>7</sup> E<sup>7+9</sup> D<sup>7+9</sup> E<sup>bΔ</sup>

I used this technique in the following way for my arrangement of "Wrap Your Troubles In Dreams."

Dm<sup>7</sup> G<sup>7</sup> C<sup>Δ</sup> becomes Dm<sup>11</sup> A<sup>b7</sup> G<sup>7</sup> D<sup>b7+</sup> C

# Functional Substitutions

## 8

Chords which share several common tones can be used interchangeably. This works well when chords share similar tendencies toward resolution. A functional progression such as  $C^\circ 7$ ,  $F7(b9)$  can substitute for  $A^\circ 7$ . The common tones found in these chords (C,  $E_b$ ,  $F^\sharp$ , A) as well as the resolution of both sets of chords to  $B_b$  make this a viable substitution. Conversely,  $F^\sharp^\circ 7$  can replace the progression of  $A^\circ 7$ ,  $D7(b9)$ . Along with the common tones ( $F^\sharp$ , A, C,  $E_b$ ) and resolution tendencies shared by these chords, they are also on the same *diminished axis*. A diminished axis is the series of tones formed by stacking minor thirds (the interval structure of the diminished seventh chord). Other commonly used substitutions are: the iii chord in place of a I chord (common tones), and the  $V^\circ 7$  in place of a I chord (common tones).

$A^\circ \Delta 7$        $B_b^{\flat 9}$       becomes       $C^\circ 7$        $F7_{-13}^\circ$        $B_b^{\flat 9}$

$E^\circ 7$        $A7_{-13}^\circ$        $Dm7$       becomes       $A/C^\sharp$        $Dm$

$B/D^\sharp$        $Em$       becomes       $F^\sharp^\circ$        $B7-9$        $Em^{\flat 11}$

D<sup>7</sup>+9

# Harmonizing Melody Notes

## 9

Melody notes can be isolated from their existing harmonic underpinning and assigned new chords. There are three basic choices for harmonizing melody notes: 1) the melody note can become a chord member (or extension) of a new harmony. For example, if the melody note is F, and the original chord is D $\flat$ , we can change the chord to Cm11, thus making the melody note the eleventh (extension) of the new chord; 2) the melody note can be an *altered* chord tone. For example, if the melody note is G, and the original chord is C, we can change the chord to D $\flat$ 7+11, thus making the melody note the +11 of the new (altered) chord; 3) the melody note can be a non-chordal tone. For example, if the melody note is F, and the original chord is Dm7, we can change the chord to Em7, thus making the melody note a non-chordal tone. Factors in choosing which setting is best for the melody note include the context of the substitution (what precedes and follows it), and the amount of consonance or dissonance desired.

becomes

Fm7      B $\flat$ 7 $^{-9}_{+11}$       E $\flat$  $\Delta$ 7      D $^{\circ}$ 7    D $\flat$ 7+11    B7+11    G7 $^{-9}_{-13}$     Cm7

becomes

Gm7      C7 $^{-9}_{+11}$       F $\Delta$ 7      E $^{\circ}$     E $\flat$ 7+11    D $\flat$ 7+11    A7 $^{+9}_{-13}$     Dm7

becomes

Am7      D7 $^{-9}_{+11}$       G $\Delta$ 7      F $^{\#}$  $^{\circ}$     F7+11    E $\flat$ 7+11    B7 $^{+9}_{-13}$     Em7

becomes

B<sup>b</sup>m<sup>7</sup> E<sup>b</sup>7<sup>+11</sup> Gm<sup>11</sup> A<sup>b</sup>m<sup>11</sup> B<sup>7-9</sup> Em<sup>6</sup> E<sup>b</sup>7<sup>+11</sup> D<sup>7sus4</sup>

becomes

Here's how I did it:

E<sup>b13</sup> Dm<sup>11</sup> B<sup>b7+11</sup> Am<sup>11</sup> F<sup>#o</sup>

Here is how I used this device in "A Nightingale Sang In Berkeley Square."

becomes

E<sup>b</sup> B<sup>b7</sup> E<sup>b</sup>Δ<sup>7</sup> A<sup>b7+11</sup> A<sup>o</sup> D<sup>7-9</sup><sub>+11</sub>

# Pedal Points

# 10

The movements of roots in the bass can be replaced with a common tone over which the harmonies move. This constant bass note can provide contrast to more active root movements. It can also imply alternative moods and colors to the harmonic content. This device is especially effective in the bridge sections of tunes. For example, we can take the common progression of III, VI7, II, V7, I (Em, A7, Dm, G7, C) and place a pedal point of G under the entire progression.

Em<sup>7</sup>      A<sup>7</sup>      D<sup>Δ</sup>7      becomes      Em/A      A<sup>7</sup>b<sup>9</sup>      D<sup>°</sup>/A      D<sup>Δ</sup>/A

The first example shows a 3/4 time signature. The bass line consists of a constant G note (pedal point) across all chords. The treble clef shows the upper voices of the chords: Em7 (E3, G3, B3, D4), A7 (C#4, E4, G4, B4), DΔ7 (F#4, A4, C5, D5), Em/A (E3, G3, B3, D4), A7b9 (C#4, E4, G4, B4, D5), D°/A (F#4, A4, C5), and DΔ/A (F#4, A4, C5, D5). Circles in the bass line indicate the constant G note.

F#m<sup>7</sup>      B<sup>7</sup>      E<sup>Δ</sup>7      becomes      F#m/B      B<sup>7</sup>b<sup>9</sup>      E<sup>°</sup>/B      E<sup>Δ</sup>/B

The second example shows a 3/4 time signature. The bass line consists of a constant B note (pedal point) across all chords. The treble clef shows the upper voices of the chords: F#m7 (F#3, A3, C#4, D4), B7 (D#4, F#4, A4, C#5), EΔ7 (G#4, B4, D5, E5), F#m/B (F#3, A3, C#4, D4), B7b9 (D#4, F#4, A4, C#5, E5), E°/B (G#4, B4, D5), and EΔ/B (G#4, B4, D5, E5). Circles in the bass line indicate the constant B note.

Fm<sup>7</sup>      B<sup>b</sup>7      E<sup>b</sup>Δ7      becomes      Fm/B<sup>b</sup>      B<sup>b</sup>7b<sup>9</sup>      E<sup>b</sup>°/B<sup>b</sup>      E<sup>b</sup>Δ/B<sup>b</sup>

The third example shows a 3/4 time signature. The bass line consists of a constant Bb note (pedal point) across all chords. The treble clef shows the upper voices of the chords: Fm7 (F3, Ab3, Cb4, Db4), Bb7 (Db4, Fb4, Ab4, Cb5), EbΔ7 (Gb4, Bb4, Db5, Eb5), Fm/Bb (F3, Ab3, Cb4, Db4), Bb7b9 (Db4, Fb4, Ab4, Cb5, Eb5), Eb°/Bb (Gb4, Bb4, Db5), and EbΔ/Bb (Gb4, Bb4, Db5, Eb5). Circles in the bass line indicate the constant Bb note.

becomes

B $\flat$ /9    G7 $\flat$ 9    Cm7    F7 $\flat$ 9    B $\Delta$ /F    E/G    E $\flat$ /F    D/F

becomes

B $\flat$ /9    G $\sharp$ 7 $\flat$ 9    C $\sharp$ m7    F $\sharp$ 7 $\flat$ 9    B $\Delta$ /F $\sharp$     F/F $\sharp$     E/F $\sharp$     E $\flat$ /F $\sharp$

Try your hand at this:

Dm7    A $^{7+9}$     Dm7    G7 $\flat$ 9    C $\flat$ /9

Here's how I did it:

C/G    A $^{7+9}$ /G    F/G    E/G    C/G

becomes

G $\Delta$                     Am7    D7    D7sus4                    D7    G/D    E7 $\flat$ 9/D

# Use of Constant Structures

## 11

Constant structures can be used to harmonize a melody. Generally these are chords which move in parallel motion along with the melody. For example, if we have a melody line of C, B $\flat$ , A, we can build a structure underneath those melody notes based on the interval of a fourth. Going down from C, we can place the notes G, D, A, and E. This “quartal” structure can be moved in parallel motion under the prescribed melody notes. Therefore, the structure remains constant, with the melody.

Gm<sup>11</sup> becomes

The first example shows a Gm<sup>11</sup> chord structure in 4/4 time. The melody in the treble clef consists of the notes C, B $\flat$ , and A. The bass clef shows a constant quartal structure of G, D, A, and E. The structure is shown in its original position and then moved in parallel motion to harmonize the melody notes.

Fm<sup>11</sup> becomes

The second example shows an Fm<sup>11</sup> chord structure in 4/4 time. The melody in the treble clef consists of the notes C, B $\flat$ , and A. The bass clef shows a constant quartal structure of F, C, G, and D. The structure is shown in its original position and then moved in parallel motion to harmonize the melody notes.

E $\flat$ m<sup>11</sup> becomes

The third example shows an E $\flat$ m<sup>11</sup> chord structure in 4/4 time. The melody in the treble clef consists of the notes C, B $\flat$ , and A. The bass clef shows a constant quartal structure of E $\flat$ , B $\flat$ , F, and C. The structure is shown in its original position and then moved in parallel motion to harmonize the melody notes.

Cm<sup>11</sup> becomes

The fourth example shows a Cm<sup>11</sup> chord structure in 4/4 time. The melody in the treble clef consists of the notes C, B $\flat$ , and A. The bass clef shows a constant quartal structure of C, G, D, and F. The structure is shown in its original position and then moved in parallel motion to harmonize the melody notes.

# Modulation — Changing Keys

## 12

This can be an effective way of altering the mood of a piece. Sections of a tune can modulate from the original key to create contrast. For example, if a tune with a structure of ABA were in the key of F Major, we might modulate up a minor third to the key of A $\flat$  Major for the B sections (bridge) of the tune. This modulation could be accomplished by approaching the “new” key with a ii, V7 progression in the new key. (B $\flat$ m, E $\flat$ 7, A $\flat$ ). Another alternative is to have the melody remain in the original key while the harmonies are placed in a new tonal center. This technique keeps the melodic line intact while changing the color of the tune’s harmonic underpinning.

# Contrary Motion

# 13

Contrary motion between the two outer voices (melody and bass) can yield new harmonies and provide new melodic interest. If we have a melody that ascends from C, chromatically (in half-steps) to E $\flat$ , we can place harmonies under it which have a bass movement of descending motion. This motion can either mirror the intervallic movement of the melody or use a different intervallic relationship to provide more contrast while still moving constantly in a descending line. This bass movement can consist of roots of chords, inversions of chords, or a combination. The same technique can be used if we have a melody which descends, resulting in an ascending bass line.

# Descending Bass/Ascending Bass

## 14

The bass line can be treated independently of the melody, and can move in either a constant upward or downward motion. (Inverting chords can aid this process.) Once again, the intervals used in such movement can vary. Half-steps, whole steps, minor or major thirds, or larger intervals can be employed.

Chord progression: Dm<sup>7</sup> G<sup>7</sup> C<sup>Δ</sup> becomes F/C A<sup>7</sup>/C<sup>#</sup> Dm<sup>11</sup>

The first example shows a 4/4 measure progression. The bass line descends from G<sup>2</sup> to F<sup>1</sup> (half step), then E<sup>2</sup> to D<sup>2</sup> (half step), and finally C<sup>3</sup> to B<sup>2</sup> (half step). The melody ascends from C<sup>4</sup> to D<sup>4</sup> (half step), then E<sup>4</sup> to F<sup>4</sup> (half step), and finally G<sup>4</sup> to A<sup>4</sup> (half step). The chords are Dm<sup>7</sup>, G<sup>7</sup>, C<sup>Δ</sup>, F/C, A<sup>7</sup>/C<sup>#</sup>, and Dm<sup>11</sup>.

Chord progression: C<sup>m</sup><sup>7</sup> F<sup>7</sup> B<sup>b</sup><sup>6</sup>/<sub>9</sub> becomes E<sup>b</sup>/B<sup>b</sup> G<sup>7</sup>/B G<sup>m</sup><sup>11</sup>

The second example shows a 4/4 measure progression. The bass line descends from C<sup>2</sup> to B<sup>1</sup> (half step), then B<sup>1</sup> to A<sup>1</sup> (half step), and finally A<sup>1</sup> to G<sup>1</sup> (half step). The melody ascends from C<sup>4</sup> to D<sup>4</sup> (half step), then E<sup>4</sup> to F<sup>4</sup> (half step), and finally G<sup>4</sup> to A<sup>4</sup> (half step). The chords are C<sup>m</sup><sup>7</sup>, F<sup>7</sup>, B<sup>b</sup><sup>6</sup>/<sub>9</sub>, E<sup>b</sup>/B<sup>b</sup>, G<sup>7</sup>/B, and G<sup>m</sup><sup>11</sup>.

Chord progression: E<sup>m</sup><sup>7</sup> A<sup>7</sup> D<sup>6</sup>/<sub>9</sub> becomes G/D B<sup>7</sup>/D<sup>#</sup> E<sup>m</sup><sup>11</sup>

The third example shows a 4/4 measure progression. The bass line descends from G<sup>2</sup> to F<sup>1</sup> (half step), then E<sup>2</sup> to D<sup>2</sup> (half step), and finally C<sup>3</sup> to B<sup>2</sup> (half step). The melody ascends from C<sup>4</sup> to D<sup>4</sup> (half step), then E<sup>4</sup> to F<sup>4</sup> (half step), and finally G<sup>4</sup> to A<sup>4</sup> (half step). The chords are E<sup>m</sup><sup>7</sup>, A<sup>7</sup>, D<sup>6</sup>/<sub>9</sub>, G/D, B<sup>7</sup>/D<sup>#</sup>, and E<sup>m</sup><sup>11</sup>.

Am<sup>11</sup> D<sup>7-9</sup>/<sub>+11</sub> E<sup>b6/9</sup> becomes Am<sup>11</sup> E<sup>7</sup>/G<sup>#</sup> Gm<sup>6</sup>

# Suspended Sounds

# 15

Chords which contain thirds can be suspended (the third is then replaced with a fourth) which creates an unusual harmonic color. These suspensions can permanently replace the third, or they can resolve to the third. The resolution will yield inner voice movement. If, for example, we had the progression Cm, F7, Bb, we could change the qualities of these chords by keeping the root movement the same while assigning the suspended quality to each chord. Thus the progression would become Dsus.4, G7sus.4, Csus.4. Generally, a sus.4 chord contains a dominant seventh. Since the third is usually missing, it is sometimes difficult to determine if a major or minor quality is indicated. The major 7 interval is less frequently used in a sus.4 chord, but it does appear occasionally (i.e. C Maj.7sus.4). This is a somewhat harsher sound given the dissonant quality of the major 7 interval.

becomes

C7      F7      Bb7                      C7sus4      F7sus4      F7<sup>-9</sup><sub>+11</sub>      Bb7sus4

The first example shows a 4/4 progression. The first measure contains C7, F7, and Bb7. The second measure contains C7sus4, F7sus4, F7<sup>-9</sup><sub>+11</sub>, and Bb7sus4. The bass line shows the root movement from C to F to Bb, and the treble line shows the third moving to the fourth.

becomes

C#7      F#7      B7                      C#7sus4      F#7sus4      F#7<sup>-9</sup><sub>+11</sub>      B7sus4

The second example shows a 4/4 progression. The first measure contains C#7, F#7, and B7. The second measure contains C#7sus4, F#7sus4, F#7<sup>-9</sup><sub>+11</sub>, and B7sus4. The bass line shows the root movement from C# to F# to B, and the treble line shows the third moving to the fourth.

becomes

Bb7      Eb7      Ab7                      Bb7sus4      Eb7sus4      Eb7<sup>-9</sup><sub>+11</sub>      Ab7sus4

The third example shows a 4/4 progression. The first measure contains Bb7, Eb7, and Ab7. The second measure contains Bb7sus4, Eb7sus4, Eb7<sup>-9</sup><sub>+11</sub>, and Ab7sus4. The bass line shows the root movement from Bb to Eb to Ab, and the treble line shows the third moving to the fourth.

becomes

Gm7 C7<sup>+11</sup> FΔ7 G7sus4 C7sus4 F7sus4

Piano accompaniment for the first example. The music is in 4/4 time. The first three chords are Gm7, C7<sup>+11</sup>, and FΔ7. The last three chords are G7sus4, C7sus4, and F7sus4. The notation shows the chord voicings in both the treble and bass staves.

becomes

Am7 D7<sup>+11</sup> GΔ7 A7sus4 D7sus4 G7sus4

Piano accompaniment for the second example. The music is in 4/4 time. The first three chords are Am7, D7<sup>+11</sup>, and GΔ7. The last three chords are A7sus4, D7sus4, and G7sus4. The notation shows the chord voicings in both the treble and bass staves.

Try your hand at this:

B<sup>b</sup>7 Am7 Dm7

Here's how I did it:

B<sup>b</sup>7sus4 A7sus4 D7sus4 D7<sup>-9</sup><sub>+11</sub>

Two musical examples in 4/4 time. The first example, labeled 'Try your hand at this:', shows a sequence of chords: B<sup>b</sup>7, Am7, and Dm7. The second example, labeled 'Here's how I did it:', shows a sequence of chords: B<sup>b</sup>7sus4, A7sus4, D7sus4, and D7<sup>-9</sup><sub>+11</sub>. The notation shows the chord voicings in both the treble and bass staves.

I used suspended sounds in my arrangement of "Indiana."

becomes

D7 B7sus4 E7sus4 A7sus4 D7sus4 D7

Musical notation for the final example in 4/4 time. The sequence of chords is D7, B7sus4, E7sus4, A7sus4, D7sus4, and D7. The notation shows the chord voicings in the treble staff.

---

# Inserting Additional Chords

---

## 16

Chords can be placed between existing chords to provide more harmonic movement and interest. Combining some of the previously mentioned techniques, such as tritone substitution, approach chords, descending/ascending bass lines, suspended chords, and arbitrary root movement while keeping existing harmonies can yield a dense harmonic palette. Since this category is a virtual composite of most of the previously mentioned techniques, the final results can best be demonstrated in the versions of each tune that follow.

---

# Manipulation of Musical Forms

---

## 17

Rhythmic diminution (making rhythmic values shorter), rhythmic augmentation (making rhythmic values longer), adding measures to musical phrases, taking away beats or measures from phrases, adding contrasting sections to existing structures are all possibilities in creative arranging. None of these techniques were used in the standards portion of this book. The musical forms of these tunes were kept intact to fully demonstrate the techniques described above. However, the two original blues included in this collection use the techniques of manipulation of forms. "Blue Cycle" is a blues using the format of 12 bars, the most common found in blues. However, in the section set aside for melodic improvisation, the form has been extended by use of harmonic augmentation resulting in a structure which is 16 measures long. "Sabra" keeps the 12 bar structure, but adds another section (bridge) as a contrast. This bridge is actually a progression which is loosely based on the bridge of the tune "I Got Rhythm." In this instance, the use of tritone substitution disguises the more commonly known progression. So you see, any of these techniques can be used to enhance the harmonic quality of tunes which are familiar and they can lead you to actually creating your own compositions. Enjoy!

*Special thanks to Bill Evans for helping me set and realize my harmonic goals.*

Moderato

The piano introduction for the first system is written in G major and 4/4 time. It begins with a mezzo-forte (*mf*) dynamic. The right hand features a melodic line with eighth and quarter notes, while the left hand provides a harmonic accompaniment with chords and single notes. The system concludes with a double bar line.

Guitar VOICE

Chord diagrams for the first system: G (open), C (open), G (open), G7 (open), C (open), Cm (open).

I have al-ways been a wand-'rer, O - ver land and  
Fan - cy paints on mem - ry's can - vas Scenes that we hold

The piano accompaniment for the second system continues the melodic and harmonic themes from the first system. It features a piano (*p*) dynamic. The right hand has a melodic line with eighth notes, and the left hand has a bass line with chords and single notes. The system ends with a double bar line.

Chord diagrams for the second system: G (open), G (open), C (open), G (open), A7 (open).

sea, dear, Yet a moon-beam on the wa - ter Casts a spell o'er  
We re-call them in days af - ter Clear - ly they ap -

The piano accompaniment for the third system continues the melodic and harmonic themes. It features a piano (*p*) dynamic. The right hand has a melodic line with eighth notes, and the left hand has a bass line with chords and single notes. The system ends with a double bar line.

Chord diagrams for the third system: Cm6 (open), D7 (open), Am (open), D dim (open), Am (open), D7 (open), G (open), G dim (open), Am7 (open).

E<sup>b</sup>maj<sup>7</sup> Fm<sup>7</sup> F<sup>#</sup>° Gm<sup>7</sup> A<sup>b</sup>7 A<sup>b</sup>7-9 G7-9 G<sup>b</sup>9-13 C7sus<sup>4</sup> C7-9 Fm(maj<sup>7</sup>)

The first system of musical notation consists of a grand staff with a treble and bass clef. It begins with a double bar line and a repeat sign. The melody is written in the treble clef, and the accompaniment is in the bass clef. The key signature has two flats (Bb and Eb), and the time signature is 4/4. The notes are mostly quarter and eighth notes, with some chords and rests.

Fm<sup>7</sup> C7+5 To Coda Fm<sup>7</sup> B7-9 B<sup>b</sup>7sus<sup>4</sup> B<sup>b</sup>7 Fm<sup>7</sup> G7-9+9 C7+9-13 F7

The second system of musical notation continues the piece. It features a grand staff with a treble and bass clef. The melody is in the treble clef, and the accompaniment is in the bass clef. The key signature remains two flats. The notation includes various chords and melodic lines, with a 'To Coda' symbol at the end of the first measure.

Fm<sup>7</sup> B7+5 B<sup>b</sup>7sus<sup>4</sup> B<sup>b</sup>7-9 E<sup>b</sup> G7+5 Cm11 F7+11 Fm<sup>7</sup> Gm<sup>7</sup> A<sup>b</sup>maj<sup>7</sup> B<sup>b</sup>7-9

The third system of musical notation continues the piece. It features a grand staff with a treble and bass clef. The melody is in the treble clef, and the accompaniment is in the bass clef. The key signature remains two flats. The notation includes various chords and melodic lines, with a 'D.C. al Coda' instruction at the end of the system.

Fm<sup>7</sup> B7-9 B<sup>b</sup>m<sup>7</sup> E<sup>b</sup>7-9 A<sup>b</sup>+4 A<sup>b</sup>+5 Am-5 D7+9-13 D7-9+11

The fourth system of musical notation is the Coda section. It begins with a 'Coda' symbol and a double bar line. The notation is in a grand staff with a treble and bass clef. The melody is in the treble clef, and the accompaniment is in the bass clef. The key signature remains two flats. The notation includes various chords and melodic lines.

What price hap - pi - ness? What price hap - pi - ness? Who can truth - ful - ly say? But for ev - 'ry  
Sor - row's bound to come Teach your heart to hum Bid your trou - bles a - dieu Soon you'll see your

The first part of the verse is set in C major. The melody is simple and conversational, with lyrics written below the staff. The piano accompaniment supports the vocal line with chords and a steady bass line. The dynamic is 'mp'.

Dm7 b5 G7 G9+5 C Am Dm G7b9 C C<sup>o</sup> Dm7 C<sup>o</sup>

share with tears we pay Love is hap - pi - ness! I've had hap - pi - ness  
blue - bird fly in view You can ea - si - ly Learn his mel - o - dy

The second part of the verse continues the melody and accompaniment. The lyrics are written below the staff. The piano accompaniment features more complex chord voicings, including a G7b9 chord. The dynamic is 'mp'.

C Em7 A7+ D9 Am7 D9 b5 G Dm7 G7 Dm7 G7 sus4

But it end - ed one day, Now I look at life a dif - ferent way:  
What a won - der - ful song, It will cheer you when the day is long: \_\_\_\_\_

The end of the verse concludes with a final chord and a melodic flourish. The lyrics are written below the staff. The piano accompaniment features a G7 sus4 chord. The dynamic is 'mp'.

## Chorus

C9+5 C G7 C G7 C E7 Am D9 Am7 D7

When skies are clou - dy and gray, They're on - ly gray for a day, So WRAP YOUR TROUBLES IN DREAMS, And

The chorus begins with a double bar line and a key signature change to C major. The melody is more rhythmic and features a C9+5 chord. The lyrics are written below the staff. The piano accompaniment features a steady bass line and chords. The dynamic is 'mp'.

*D.S. al Coda*

Detailed description: This system contains six measures of music. The treble clef part has a melodic line with eighth and quarter notes. The bass clef part provides harmonic support with chords. The chords are labeled above the staff: G/D, E7-9/D, D7sus4, F7sus4, E7+9-13, and A7-9-13. The piece concludes with the instruction 'D.S. al Coda'.

⊕  
Coda

Emaj<sup>7</sup>      D<sup>b</sup>maj<sup>9</sup>      E<sup>b</sup>

Detailed description: The Coda section consists of three measures. The treble clef part features a long, sustained chord in the right hand, while the bass clef part has a more active line. The chords are labeled above the staff: Emaj7, Dbmaj9, and Eb. The section is marked with a circled cross symbol and the word 'Coda'.

# SABRA

By Andy LaVerne

B<sup>b</sup>7

The first system of music for 'SABRA' is in 4/4 time with a key signature of two flats (B-flat major). It consists of two staves: a treble staff and a bass staff. The treble staff contains a melodic line starting with a quarter rest, followed by a series of eighth and quarter notes. The bass staff contains a bass line with a whole note chord of B-flat major with a flattened seventh (B<sup>b</sup>7) in the first measure, which is tied to the second measure. The second measure contains a whole note chord of B-flat major with a natural seventh (B<sup>b</sup>7). The system concludes with a double bar line.

E<sup>b</sup>7

A7

The second system of music continues the piece. It features two staves. The treble staff has a melodic line with eighth and quarter notes. The bass staff has a bass line with a whole note chord of E-flat major with a flattened seventh (E<sup>b</sup>7) in the first measure, tied to the second measure. The second measure contains a whole note chord of E-flat major with a natural seventh (E<sup>b</sup>7). The system concludes with a double bar line.

B7

D<sup>b</sup>7

B<sup>b</sup>7

The third system of music continues the piece. It features two staves. The treble staff has a melodic line with eighth and quarter notes. The bass staff has a bass line with a whole note chord of B major with a flattened seventh (B7) in the first measure, tied to the second measure. The second measure contains a whole note chord of D-flat major with a flattened seventh (D<sup>b</sup>7). The third measure contains a whole note chord of B-flat major with a flattened seventh (B<sup>b</sup>7). The system concludes with a double bar line and the word 'Fine' written in the treble staff.

A<sup>b</sup>7 (Improvise)

G7

The fourth system of music is an improvisation section. It consists of two staves. The treble staff has a whole note chord of A-flat major with a flattened seventh (A<sup>b</sup>7) in the first measure, followed by a whole rest in the second measure. The bass staff has a whole note chord of G major with a flattened seventh (G7) in the first measure, followed by a whole rest in the second measure. The system concludes with a double bar line.

G<sup>b</sup>7

F7

The fifth system of music is an improvisation section. It consists of two staves. The treble staff has a whole note chord of G-flat major with a flattened seventh (G<sup>b</sup>7) in the first measure, followed by a whole rest in the second measure. The bass staff has a whole note chord of F major with a flattened seventh (F7) in the first measure, followed by a whole rest in the second measure. The system concludes with a double bar line and the instruction 'D.C. al Fine' written in the bass staff.

# BLUE CYCLE

By Andy LaVerne

C7

Musical notation for the first system. The treble clef contains a melodic line starting with a quarter rest, followed by eighth notes G4, A4, B4, and A4. The bass clef contains a C7 chord (C4, E3, G3, Bb3) with a fermata over it. The key signature has one flat (Bb) and the time signature is 4/4.

F7

A7-9

Musical notation for the second system. The treble clef continues the melodic line with eighth notes G4, A4, B4, and A4. The bass clef contains an F7 chord (F3, Ab3, C4, Eb3) with a fermata, followed by an A7-9 chord (A3, C#4, E4, G4, Bb4). The key signature has one flat (Bb) and the time signature is 4/4.

D7sus

D/G

F#7sus

F#/B

Bb7sus

# Andy LaVerne

---

Born in New York City on December 4, 1947, Andy LaVerne enrolled at the age of 8 in the Juilliard School of Music as a classical piano student, and he continued the study of music at the New York City High School of Music and Art, Ithaca College, Berklee College of Music, and the New England Conservatory.

As a teenager, LaVerne discovered jazz by listening to "Monk's Dream" by Thelonious Monk on the radio. His interest for jazz piano eventually led him to Bill Evans, who became his first jazz teacher. Later on he also studied jazz with Don Friedman, Jackie Byard, and Richard Beirach. He continued his classical studies with John Ranck, and also studied composition with composer Karel Husa.

Andy LaVerne's professional career includes three years (1973-1975) with Woody Herman's big band and four years (1977-1980) as pianist, composer and arranger with the Stan Getz Quartet. He has also played and recorded with Frank Sinatra, Sonny Stitt, Donald Byrd, John Abercrombie, Miroslav Vitous, Lee Konitz, David Liebman, Joe Farrell, Eddie Harris, Scott Hamilton, Eddie Daniels, Dizzy Gillespie, Chick Corea, Bob Brookmeyer, Mel Lewis, Mel Torme, Bill Watrous, Shelly Manne, Eddie Gomez, and numerous other top performers.

His collaborations with Chick Corea resulted in the highly acclaimed album, "Andy LaVerne Plays The Music Of Chick Corea" (Jazzline). His growing list of recordings as leader includes "Another World," "For Us," "Frozen Music," "Fountainhead," "Severe Clear," "Standard Eyes" (SteepleChase), "Liquid Silver," "Jazz Piano Lineage," "Magic Fingers" (DMP), "Natural Living" (Musidisc), "True Colors" (Pony Canyon), "See How It Feels" (Brubeck/LaVerne Trio, Blackhawk), and "Captain Video" (Atlas). New for 1991 is an L.A. recording featuring bassist John Patitucci, drummer Dave Weckl (both of Chick Corea's band) and saxist Bob Sheppard, tentatively titled "The Pleasure Seekers" (Triloka).

Andy LaVerne is the recipient of three Jazz Fellowships from the National Endowment for the Arts (1984, 1987, 1989). He has also been awarded several ASCAP composer awards as well as a "Meet The Composer" grant.

His first instructional video, "Andy LaVerne's Guide to Modern Jazz Piano," has recently been released by Homespun Tapes. LaVerne has been the subject of feature articles in "Downbeat," "Keyboard," "Jazziz" and "Hot House."

When not touring North America and Europe playing concerts, clubs, and giving clinics, he is a frequent contributor to "Keyboard," "Downbeat," "Piano Stylist," "Keyboard Classics," "Sheet Music Magazine," "Letter From Evans," and other publications. He has also served as an adjunct professor of music at The University of Bridgeport.

# A Priceless Musical Adventure!

## Keyboard Classics

THE MAGAZINE YOU CAN PLAY

SAVE 10%!

- **THE MOST BEAUTIFUL MUSIC EVER WRITTEN!**  
 The soaring melodies of the Romantic Era ... the quiet elegance of Mozart ... the fire of Beethoven ... and the jazziness of Gershwin. It's all here — over 500 years of golden classics. There are ten or more pieces in each copy of *Keyboard Classics*. And every issue is filled with surprises you won't find anywhere else.
- **ADVICE FROM THE MASTERS**  
 With artistic advisors such as Van Cliburn and André Watts, *Keyboard Classics* is filled with the best music lessons you'll find anywhere. In each and every issue there are columns on building technique, becoming a better musician, understanding music and the ins and outs of piano playing.
- **FOR THE BEGINNING STUDENT**  
**A MAGAZINE WITHIN A MAGAZINE: THE NEW PIANIST**  
 For early level pianists, each issue of *Keyboard Classics* contains The New Pianist, featuring easy pieces and arrangements of the great classical themes that anyone can play! Plus technique and theory lessons. Playing and learning has never been easier ... or more enjoyable!

**Special Offer      Special Offer      Special Offer**

Wistful . . . Romantic . . . Contemplative . . . Bluesy . . . Tranquil!

# PURE PIANO ENJOYMENT FROM A MASTER SONGWRITER!

**INCLUDES 12  
SPECTACULAR ORIGINAL  
PIANO COMPOSITIONS!**

By the composer of such hauntingly beautiful standards as "Angel Eyes," "Everything Happens To Me," "Violets For Your Furs," and "Let's Get Away From It All," here is a very special collection of moody ballads and soft meditations for piano.

Let your mind and fingers float through this musical fantasy world, as your ears are caressed by the warm melodic and harmonic touch of the one and only Matt Dennis.

## **A PIANIST'S COMPOSER**

Matt Dennis has the gift of song. His work has been recorded by Frank Sinatra, Tony Bennett, the Tommy Dorsey Orchestra, Jo Stafford and so many others. In this collection he shares his lyrical, quieter side that truly reflects his love of the piano and its many colors. This is music to treasure by one of today's genuine masters.

## **YOUR GUARANTEE**

We are sure you will be delighted with Matt Dennis' Midnight Piano Moods. But if, within 30 days of receiving your copy, you do not wish to keep it, simply return it for a full refund. No questions asked! You have absolutely nothing to lose. So order your copy TODAY!

**A Time Within

 It Had To Be You  
 Lonely Town  
 Poor Butterfly  
 What's New  
 You And The Night  
 And The Music  
 You Are Too Beautiful  
 Alone Together

By popular request, Dick Hyman has taken some of the best loved standards from his two fantastically popular fake books — the ones with lead sheets showing the special chords professionals use — and has written down, note for note, complete two-hand versions of each! Now, you can see exactly how Dick “voices” his chords when he plays these tunes ... how he inserts countermelodies to fill out his harmonies ... how he uses bass lines to smooth out and complete his chord progressions.

You'll be thrilled with these basic but professionally polished versions of your favorite tunes. They are easy to play, but filled with the sophisticated musical charm that only Dick Hyman can produce!

### **Your Guarantee**

We are sure you will be thrilled with Dick Hyman's Solo Piano Sketches. But if you are unsatisfied for any reason at all, simply return it within 30 days for a full refund. No questions asked. You have absolutely nothing to lose, so order your copy TODAY!
